EXPERIENCE

ANTINO | ASSOCIATE SOFTWARE DEVELOPER

Feb 2022 - July 2023 | Gurugram, Delhi NCR | Onsite

- Developed robust and scalable web applications using **ReactJS** and **NextJS** and implemented **Redux** state management for improved performance and efficient data handling.
- Collaborated on web development projects for Fintech, Edtech, Mobility, and Healthcare sectors, delivering tailored solutions for diverse clients such as **Safexpay**, **Jobizo**, **Travel Hangouts**, **DevLabs** and **Streetlight**.
- Utilized **React Hook Form** for seamless form validation and user input handling while also incorporating techniques to enhance functionality and user experience.
- Engaged in end-to-end project development, from requirement gathering to post-implementation support, actively participating in **code reviews**, **debugging**, and **troubleshooting**, while maintaining open communication with team members and stakeholders to foster collaboration and ensure smooth project execution.

PROJECTS

PROJECT SAFEXPAY | FRONTEND DEVELOPER

JAVASCRIPT, REACT, REDUX TOOLKIT, MATERIALUI, GIT, BITBUCKET

Payment gateway with **four admin panels** which several businesses will use for acquiring merchants without worrying about integrating with banks, creating integration kits, and merchant support systems.

PROJECT DEVLABS | FRONTEND DEVELOPER

JAVASCRIPT, NEXTJS, REACT, TAILWINDCSS, REDUX TOOLKIT,
MATERIALUI, GIT, GITHUB

This EdTech project enables users to purchase courses and offers teachers an opportunity to teach on the platform. It provides a user-friendly interface for course browsing and purchasing, while empowering teachers to create and deliver their own courses.

Worked on the **admin portal** as well as the **WebApp**.

PROJECT JOBIZO | FRONTEND DEVELOPER

JAVASCRIPT, REACT, REDUX TOOLKIT, MATERIALUI, GIT, GITHUB

This is a platform for healthcare organizations to manage and hire healthcare professionals. It simplifies recruitment, onboarding, and scheduling while ensuring credential verification, performance tracking, and compliance. The user-friendly interface facilitates efficient candidate selection and seamless integration with existing systems. Ultimately, it enhances workforce management, reduces administrative burdens, and improves patient care outcomes.

Worked on the **admin portal** as well as the **WebApp**.
